MAYOR'S ANNUAL MESSAGE

I herewith submit to the taxpayers of the City of Winooski our nineteenth annual report for the fiscal year ending December 31, 1940 showing all financial and other transactions of the various departments during the past year.

In this message I wish to be as brief as possible, but wish to state, that at all times I have endeavored to keep within my jurisdiction in all civic matters, thereby rendering justice and fairness to all.

A great number of Council meetings were called, in addition to our regular monthly assemblies, and all important matters were acted upon. All legal services were handled by our City attorney.

I wish to assure the people of Winooski that our City is financially sound, and that we will endeavor to keep it so.

Notwithstanding the fact that at the beginning of the year demands were extremely heavy on our Charity Department, but after careful consideration and investigation, I recommended that we secure an investigator for the purpose of investigating the circumstances of each person receiving any assistance from this Department, I am pleased to state, that since adopting this system, a substantial reduction in this Department has been effected. Also in view of the great improvement in our local industries, and unemployment being rapidly consumed by other agencies, this Department has been reduced to a minimum, and I trust that it will continue to operate on the present scale.

At this time we have no W.P.A. projects in operation on either Street or Water Departments, but the W.P.A. sewing project has been moved from Malletts Bay Ave., and is now located and operating at the City Hall. This project has been a source of considerable savings to our Charity Department, as the products which are constructed are distributed to the needy families throughout the City.

Other W.P.A. projects were operated by the Street and Water Departments during the year to October 29, improving several of our streets, and extensive improvements to our water supply system. (See W.P.A. projects in report.)

It will be of great interest to our people of Winooski to know that the new high pressure system located on Upper East Allen Street was placed in operation May 4 and supplies water to the Colchester Fire District No. 1. This system also supplies home owners on Upper East Allen Street to our City line.

The Water Department is now self supporting, and a paying department; the tendency of permitting water account becoming delinquent has been discouraged. Meter rates and miscellaneous other accounts that have been in arrears for some time are being collected as rapidly as possible, and we are definitely assured that this Department with careful economy in expenditures will continue to be a paying department. In fact all the departments are showing much greater improvement over the previous years.

One of the outstanding accomplishments in the Water Department was the installation of another deep well pump at well No. 3, thus eliminating the old air lift system, which had become obsolete, and very expensive to operate. I strongly recommend the purchase of another deep well pump for installation this coming year.

The Police Department operated very efficiently and effectively at all times, co-operating with all departments and our citizens.

Our Fire Department continues to operate effectively and with fire losses being kept to a minimum.

I also take great pride in mentioning our Health Department, with its valuable aid to the general welfare of the public. This great service to the public should not be estimated or figured in the category of dollars and cents.

I am very pleased to say that we now have a kiddies' lunchroom at the City Hall. The kiddies are served with hot lunches at noon during the school days. This was made possible by close co-operation with the City officials and the Friendly Homemakers Club. This is under the supervision of a local W.P.A. supervisor, and provisions are provided by the federal government and local donations.

Youth and adult recreation has been carried on as usual during the past year under local W.P.A. supervision, and I now recommend that this form of recreation be continued, as it is of great benefit to our youth and adults in this community.

In closing I wish to express my thanks to all our citizens, members of the Board of Aldermen, employees, and heads of the various departments for their wholehearted co-operation during the past year.

Respectfully submitted,
MAURICE J. PAQUETTE,
Mayor.

Dated, December 31, 1940.

TREASURER'S REPORT

To the Honorable City Council of the City of Winooski, Vt.:

POLICE DEPARTMENT

I hereby make my annual report as Chief of Police of the City of Winooski, year ending December 31, 1940. There were one hundred (100) arrests for the following causes.

Breach of peace	27
Non-support	5
Transient person	1
Keeping gambling resort	1
Violation motor laws	9
Intoxication	37
Receiving stolen property	2
Burglary	5
Larceny	4
Larceny from the person	2
Search for liquor	1
Selling liquor	1
Promoting lottery	1
Violating city ordinance	1
Attempted burglary	1
Statutory rape	2
Total	100

There has been received from the Chittenden Municipal Court \$392.00 and the same has been paid to the City Treasurer.

The following is the amount of money received from the Chittenden Municipal Court, and the date in which I paid same to City Treasurer:

January 12, 1940	\$ 82.05
April 26, 1940	47.25
July 19, 1940	142.35
October 9, 1940	120.35
	<hr/>
	\$392.00

In conclusion I want to thank his Honor the Mayor, and the City Councilmen for their cooperation and courteous treatment of the Police Department.

Respectfully submitted,
C. A. BARBER,
Chief of Police.

HEALTH DEPARTMENT

To the City Council of Winooski, Vt., the following report of the city health officer for the year 1940 is respectfully submitted.

The past year has been very satisfactory as regards the general health of the community. There have been no epidemics of any type during the year, which is very unusual.

A list of the reported contagious diseases for 1940 is as follows :

Whooping cough	Fifteen (15) cases
Measles	Two (2) cases
Chicken pox	Ten (10) cases
Scarlet fever	Four (4) cases
Mumps	Two (2) cases
Diphtheria	One (1) case
Pneumonia	Three (3) cases

The milk supply is furnished by accredited herds. All the dairies have been examined and were found to be modern and sanitary. Milk rooms of milk dealers were also examined and found in good condition.

Our schools have been examined and were found to be in good condition.

It is advisable that all children should be vaccinated against smallpox, and inoculated against diphtheria and scarlet fever. The clinics held for this purpose, under the auspices of the Visiting Nurse Association have been of great benefit in this respect, as can readily be seen by comparing the number of communicable diseases with that of former years.

The water supply has been improved by the use of artesian wells which furnish water for the reservoir. The purchase of land surrounding the reservoir greatly helps to prevent contamination of the water supply.

Respectfully submitted,
J. G. THABAULT,
Health Officer.

FIRE DEPARTMENT

I hereby submit my report of the Fire Department for the year ending December 31, 1940.

The department consists of officers and men as follows: Paul Gunther, Theodore Merchant, Bramer Vanslette, Louis Campbell, Delmar Villemaire, Henry Merchant, Maurice Blanchard, Emile Blanchard, Joseph LeBeau, Charles Adams, Aurelien Boucher, Joseph Tamer, Albert Lavigne, Albert Soutiere, Anthony Dousiewicz, Harvey Martin, Leo Campbell and Napoleon Provost.

The department responded to 56 alarms during the year as follows: Eleven in January, six in February, seven in March, ten in April, two in May, one in June, one in July, two in September, eight in October, three in November, and five in December.

The department spread 6,800 feet of hose and consumed 399 gallons of chemicals. The approximate damage was \$8,207.00, all covered by insurance. There were fifteen less alarms than in the previous year and an increase of property damage of about \$5,801.00 over the previous year. There were two out-of-town alarms and one false alarm.

Chimney fires were the cause of about two-thirds of the alarms, and only for the timely arrival of the department much more damage would have resulted. Several dumps and grass lots were burned by the department during the spring of the year to prevent unnecessary calls. Inspections throughout the business sections were made in the spring and fall, and all complaints reported were investigated and promptly adjusted.

All alarm wiring throughout the city has been put in first class order and all hazards eliminated. This work was done by some of the boys of the department with very little cost to the City. I wish to state that the fire loss throughout the state has increased the past year in every city and town including our City. While the financial loss is a matter which when reduced to dollars and cents is enough to cause alarm, the loss in convenience, and injuries, and home surroundings, is enough to make all sensible people stop and think the matter over and try to eliminate all hazards. Some people seem to

think that they are privileged characters when it comes to obeying the laws in regard to starting fires on streets and highways and dumping refuse on other people's property. I have received numerous complaints from every section of the City in regard to this nuisance and have found all complaints justified. It is impossible for an official of a volunteer fire department to get the results required unless they have the cooperation of every citizen in the City.

In closing I wish to thank all the boys in the department, the Mayor and Council and all those who have cooperated with me throughout the year.

Respectfully submitted,
PAUL H. GUNTHER,
Chief.

WINOOSKI VISITING NURSE ASSOCIATION, INC.

The Winooski Visiting Nurse Association, Inc., severed from Burlington February 1, 1940. We were given John Hancock Mutual Life Insurance Company's contract February 15, 1940, for nursing service.

During the year 1,354 calls were made by our nurse. Four hundred and thirteen attended Thursday afternoon conferences at City Hall.

Amount received from John Hancock Insurance Company, \$29.75; paid calls received by nurse, \$43.10. Our nurse Miss Evelyn Dubuc.

We wish to thank each and every one who contributed towards making another Annual Street Fair a great success.

Respectfully submitted,
MRS. EDWARD COMPANION,
President.

LIBRARY DEPARTMENT

There are 4,821 books in the library.

One hundred forty-five books have been added this year.

The circulation for the year was 12,234.

The State Regional Library has loaned us about two hundred books during the year.

Several hundred books have been mended by an expert and the only cost to the library was for the purchase of mending materials.

Four National Youth Administration girls appointed by Principal Couture work regularly in the library.

One of the outstanding needs of the library has been recent fiction. Anyone in Winooski wishing to read the books listed as "best sellers" has been obliged to get them from other libraries.

In the belief that many of those people would be glad to get the books from the Winooski library, if they were available here, the Progressive Study Club in September 1940 presented to our library as the nucleus for a lending library, sixteen of the most popular current books; ten novels and six mystery stories.

Those books have been rented at five cents the first week and two cents for each additional day. Magazines have been purchased and three more recent books have been added to the lending library.

The Progressive Study Club also gave the library six much needed books for Grade Three children which have, of course, been issued without charge.

We wish to thank the City Council for the valuable support they have given the library during the past year.

Compton's Encyclopedia was purchased during the year and it is in constant use.

We wish to acknowledge books and magazines from the following: The Progressive Study Club, Miss Anna Becwar, Sergeant Edward Payne, Mrs. George T. Stevenson, Miss Ruth Trelford Stevenson, Mr. Samuel Epstein, Mrs. R. A. Carter, Mr. and Mrs. Omer Bouchard, Mrs. Henry Conlin, Mr. Albon Bailey, Mrs. S. N. Putnam, Mrs. Edward Turner,

Mrs. Frances T. Prior, Miss Theresa Companion, Mrs. Vesta Osborne, Mrs. J. Aldrich, Mr. Samuel Harris, Mr. Michael Vartuli.

Respectfully submitted,

MRS. V. H. PETERSON,
MRS. HENRY CONLIN,
MRS. F. E. ROBINSON, *Chairman*,
MISS MARY C. ALLARD, *Secretary*,
SUPT. G. R. STACKPOLE, *Treasurer*,
Trustees of Winooski Free Library.

Respectfully submitted,
GEORGE R. STACKPOLE,
Treasurer.

WATER DEPARTMENT

To the Mayor and City Council:

Gentlemen: I hereby submit my annual report of the Water Department for the year ending December 31, 1940.

During the past year this Department continued with a W.P.A. construction program during the late fall and winter. New 6-inch water mains were laid on Elm, West, Hood and Franklin Streets, also a new High Pressure System, including a new concrete pump house. This was constructed to furnish Upper East Allen St. and Colchester Fire District No. 1. The above listed construction will be found listed under the heading W.P.A. Projects.

The Department forces during the year laid approximately 160 feet of 6-inch water main on Dion Street now accepted by the City. We also laid about 50 feet 6-inch water main and installed a new valve on East Canal St.

A new concrete building was constructed over well No. 3 for the purpose of housing the new deep well pump now operating from there.

There were twenty new 1-inch house services constructed of which sixteen were added to the system during the year. We also reconstructed and relocated 57 services; we installed two new hydrants, one on Upper East Allen St., connected to the new High Pressure System about 200 feet west of the City line. One at the northeast corner of Hickok and Elm Streets, one relocated from center of Elm Street to the corner of West and Elm Streets thus greatly improving the fire protection in those areas.

We had twenty services frozen during the winter, of which twenty were thawed out by electricity and four by hot water; there were but eight meters frozen during the winter. All were repaired, tested and replaced into service.

All meters were read quarterly and all slow and stopped meters were removed and replaced with new, or reconditioned meters; also all meters were sealed throughout the City during the year.

At this time I wish to recommend that we purchase another deep well pump for installation next year; this will give the City a more adequate supply of water to the reservoirs.

I also recommend that some new type of water system be installed to supply home owners with somewhat higher pressure than at present; this applies to residents in the various sections of the City from which complaints have been received from time to time during the past years.

In closing I wish to thank the City officials and the employees for their co-operation during the past year.

Respectfully submitted,

WM. R. ALLEN,
Superintendent.

W.P.A. CONSTRUCTION WATER DEPARTMENT

Project No. 465-12-2-35-A

This project was one of the most outstanding construction projects completed during the year. It provided for the construction of a new High Pressure System which consisted of a new concrete pump house installation of pressure tank, pumps, and all necessary valves and equipment, also the construction of about 450 feet of 10-inch and about 450 feet of 8-inch cast-iron water mains on Upper East Allen St. to Colchester line, also a new 8-inch water meter was installed at City line, for the purpose of recording all water furnished to Colchester Fire District No. 1 by this new system.

There were also nine new house services constructed of which five are now being supplied from this system. Others are to be added within a short time.

We also installed a new hydrant in this system at a point about 200 feet west of City line, thus giving adequate fire protection to this portion of the City.

The total cost of this project includes the acquisition of land, legal services, engineering, supervision, all equipment and material.

W.P.A. Funds \$4,068.61

City Funds \$6,198.90

(1400 GPM Pump, valued \$700.00, which was removed from old pumphouse.)

Project No. 465-12-2-35

This project provided for the construction of water mains, valves, hydrants, services on the following streets: Hood, Franklin, West and Elm. New 6-inch cast-iron mains were laid on Hood St. This brings our water supply system on Upper Hood St. to near the corner of Bellevue St.

New 6-inch mains were laid on Franklin, West, and Elm Streets replacing old 1-2-4-inch mains which had become inadequate to supply sufficient water in those areas. One new hydrant was installed at the northeast corner of Hickok and Elm Streets, and one hydrant relocated from the middle of Elm Street to corner of West and Elm Streets, thus giving more adequate fire protection in that area.

New valves were installed and all house services were renewed on Franklin, Elm, and West Streets. At this time all services from Hawthorne Street southerly to Lafountain Street were connected into the High Pressure System.

We have a balance of \$1,100.00 for continuance of this type of construction for 1941 but it is not known at this time whether labor will be available, due to the large number of men required at Fort Ethan Allen.

The total cost of this project was:

W.P.A. Funds \$4,914.74

City Funds \$1,781.07

WM. R. ALLEN,
Superintendent.

STREET DEPARTMENT

To the Mayor and City Council:

Gentlemen: I herewith submit my annual report of the Street Department for the year ending December 31, 1940.

During the past year the forces of this Department confined their work to maintenance of streets and other work necessary to the Department.

Street construction and operation of the city quarry was carried on by W.P.A. labor, while a large W.P.A. construction program was outlined for the year; operations were not as anticipated due to lack of W.P.A. labor and the suspension of our W.P.A. projects in October.

Several streets were scarified, reshaped, rolled, and resurfaced. Ten thousand three hundred gallons of asphalt was purchased and applied to the several streets where it was most urgently needed. One or two applications of chloride was applied on our dirt streets during the summer as required.

Coldpatching was carried on during the summer and late fall. Main sewers were flushed as required, and all catch basins were kept clean, and débris removed after each storm. Streets in the business sections were cleaned and washed each week end during the late spring and summer months.

All sand boxes were repaired, repainted, and refilled in the fall and placed throughout the business sections and all other principal places. All streets were cleared of snow and snow was removed from all business sections and churches.

I wish to recommend at this time that two carloads of asphalt be purchased next year for applications to the several streets now so urgently need resurfacing.

The city quarry was operated eight months during the year by W.P.A. for the purpose of quarrying and crushing stone for our projects and regular street work. We also operated a concrete sidewalk, curb, and gutter project under W.P.A.

The project also had to be suspended in October due to all the help being transferred to national defense work at Fort Ethan Allen. At this time it is impossible to say whether our projects will be resumed in the coming year; this will largely depend on the amount of help required at Fort Ethan Allen.

In closing I wish to thank the City officials and the employees for their wholehearted co-operation during the past year.

Respectfully submitted,
WM. R. ALLEN,
Superintendent.

W.P.A. STREET DEPARTMENT CONSTRUCTION

Project No. 65-1-12-77

This project provides for the operation of the city quarry and the construction and reconstruction of various city streets.

W.P.A. funds to the extent of \$33,000.00 was allotted to carry on this work. During the past year we constructed a new rubble base with penetrated macadam surface on the following streets; two carloads of asphalt was used, one of which was furnished and applied through W.P.A. funds:

Lafountain St. from Main to Leclair St.	460 ft.
Leclair St. from Lafountain to Spring St.	730 ft.
Barlow St. from Railroad Tracks to Canal St.	650 ft.
East Canal St. from Barlow to Beard St.	450 ft.

Thus making a total of 2,290 lineal feet of permanent construction and improvements. Construction was also started on West Street late in the fall but had to be discontinued due to the help being transferred to Fort Ethan Allen.

The quarry was operated eight months during the year quarrying and crushing stone for the W.P.A. projects and for other regular departmental uses.

Tons crushed and quarried 6,960	
Used on W.P.A. projects.....	5,195 tons
Street Department use	1,565 tons
Stone on hand ready for use	200 tons
Total	6,960 tons

Total Cost of Project 1940

W.P.A. Funds \$10,741.53
1 carload MC2 Asphalt

City Funds \$2,594.14

We have a balance of \$21,367.43 W.P.A. funds for use in street construction and quarry operation for the year 1941.

SIDEWALK, CURB AND GUTTER CONSTRUCTION

Project No. 65-1-12-18

This project provided W.P.A. funds to the extent of \$5,405.04 for the construction of concrete sidewalks, curbs, and gutters on various streets.

This project was carried on for about four months during the summer and fall. This type of work greatly improves the City streets and should be carried on each year while W.P.A. funds for labor are available.

There were about 900 feet of curb and gutters reconstructed on Lafountain Street and construction was carried on East Spring Street, Barlow Street, East Canal Street; also curbs and gutters were completed part way on both sides of West Street, but operations on this project were also suspended in October due to the help all being transferred to Fort Ethan Allen.

We have a balance of \$1,955.00 for the completion of this work next spring. At this time it is impossible to say whether W.P.A. labor can be secured for our projects at that time.

Total Cost of Project 1940

W.P.A. Funds \$3,451.67

City Funds \$1,557.70

WM. R. ALLEN,
Superintendent.

OLD AGE ASSISTANCE INVESTIGATOR

I hereby submit my annual report as Old Age Assistance Investigator to the residents of Winooski, for the year ending December 31, 1940.

There have been twelve new applications filed for the year 1940. All have been properly investigated and approved by the Old Age Assistance Department. There are fifty-three active grants, four increases, two decreases, and a loss of two active grants through death. Payment of Old Age Assistance to recipients during the year January 1, 1940 to December 31, 1940 totals \$10,335.00.

I have several applicants who are in direct need of Old Age Assistance. The department has been unable to make grants, through lack of appropriations. I will do all I possibly can to help these applicants receive assistance when funds become available.

Respectfully submitted,
EDWARD J. DOREY,
Old Age Assistance Investigator.

OLD AGE ASSISTANCE DEPARTMENT
STATE HOUSE
MONTPELIER, VERMONT

For the information of your taxpayers the customary annual statement is presented for your town report.

Payments of old age assistance to persons applying from your town amounted to \$10,335.00 during the year January 1, 1940 to December 31, 1940.

The number of recipients in December, 1940 was 53.

The resources of this department and its ability to make payments are determined by the state appropriation which is matched by federal funds.

The administrative expenses of the department during the year was 4%.

The advice and council of local officials and interested people are gratefully acknowledged by this department and its field staff.

Very sincerely yours,
W. ARTHUR SIMPSON,
Director.

CHARITY DEPARTMENT

To the City Council of Winooski, Vt.:

I hereby submit, as overseer of the poor, my report for the year ending December 31, 1940. We gave assistance to 206 families during the year, whole or part time. We have investigated each and every case. Some of these families are getting help from us although they belong to other towns. In turn we have sent the bills to these towns and have received the reimbursement for all the assistance given.

We have a record file at the commissary which is of great importance to us in helping us to locate each needy family. On hand at the store is \$750 worth of merchandise. Nine women who have been in need of work are now employed at the sewing room.

We are happy to say that the year 1941 finds us with very few people on relief, and should our work continue, the department will show a new low record.

STATE OF VERMONT
COMMODITY DISTRIBUTION OFFICE
MONTPELIER, VERMONT

January 31, 1941

Mr. J. Henry Desautel
Overseer of Poor
Winooski, Vermont

Dear Mr. Desautel:

Herewith find total amount of Commodities received by your town during the year of 1940, together with their value.

Grand Total Pounds	Estimated Value
417,764	\$25,299.75

I trust these figures will be of interest to you. Kindly print in your town report and oblige.

Yours truly,
ALLEN T. CALHOUN,
Director, Commodity Distribution.

ABSTRACT OF DIRECT RELIEF GRANTED INDIVIDUALS DURING 1940

Note: The amount charged to each individual represents the net amount of relief granted. In many cases individuals were required to work for their orders, and were given work in the Street Department or at the Wood Shed or other odd jobs about the city, and the amount so earned has been deducted from the total amount of relief granted the various applicants for relief.

	<hr/> \$26,193.94

Respectfully submitted,
J. HENRY DESAUTELS,
Overseer of Poor.

CHARITY DEPARTMENT INVESTIGATOR

To the Honorable City Council:

Gentlemen: As investigator for the Charity Department I hereby submit my report. I have found many cases we were giving relief to that did not belong to the City of Winooski. We have been giving assistance to non-residents and transients over an extended period (in some cases) of 12½ years 11 and 9 years.

Some of these cases cost our City \$2,000.00 and over, each. We have paid out \$15,000.00 on just such cases.

In March \$1,474.40 was given out of the Commissary. I was then asked to accept the position of investigator for the Charity Department. During the month of April \$1,175.70 was given out of the Commissary. Some people were working and were also receiving food orders from the Commissary. Today we average \$150.00 per month from the Commissary.

Local industrial conditions have improved since then and having been able to find residences for people living in Winooski as non-residents and not assisting transients living elsewhere who claimed Winooski as their residence, I am glad to state this department is running on a much smaller basis.

I wish to thank all interested citizens for their cooperation in helping reduce the cost of this department.

Respectfully submitted,
(MRS.) MADELEINE B. COMPANION,
Charity Department Investigator.

RECREATION PROGRAM

I hereby submit the annual W.P.A. Recreation Program report to the Mayor, City Council, and residents of Winooski. The project is sponsored by the local City Council and School Board and the salaries of all recreation workers are furnished by the federal government. Sponsors, together with other interested organizations and individuals, were responsible for maintenance materials, athletic equipment and other recreation apparatus relative to a good program. Among the outstanding contributions made by sponsors to the program during the year are: A sum of \$100 appropriated by the City Council to be used for the purchase of maintenance materials and equipment, the erection of a 50-foot flag pole by the Street Department, on Hawthorne Field, 400 pounds of calcium chloride furnished by the Street Department for use on tennis courts and occasional use of trucks and men in maintenance work necessary to the program.

The program operated on a yearly basis with seasonal athletics alternating the program. The City Hall, Memorial Gym, Fire Station Rooms, Hawthorne Field and school yards were also used alternately by the program. Winter activities included the skating rink maintenance and supervision, hiking for adults and children, skiing, wienie roasts, sleigh rides, basketball, hockey, skating parties at Malletts Bay, coasting, mountain climbing, craft work, discussion groups, numerous social functions held by the Activity Club, a huge Christmas party given for the children of the City, and the City Hall Community Center. Activities in the center include badminton, shuffleboard, ping pong, bowling, puzzles, card games, and a varied assortment of quiet games, also a weekly social dance was held for the young people and adults.

The spring months showed a slight decline in activities due to weather conditions, and also to the loss of Recreation Director, Francis Hatin, leaving but one full-time leader and one part-time worker.

Gym classes were offered to the public (adults and children) each afternoon and evening. Nature hikes, treasure hunts, scavenger hunts and basket lunches were scheduled on

Sundays. The Community Center operated until June, with badminton and ping pong tournaments closing the season's activities. The third annual amateur contest was staged in the gym on May 17, with a capacity crowd attending, proceeds were used to buy equipment for the program.

The summer activities opened on Hawthorne Field with a huge colorful parade through the City to the field. The opening ceremonies were climaxed by a flag raising ceremony, with the local bugle and drum corps and scouts participating. Summer activities included a Junior boys' baseball league consisting of eight teams, a male adults' softball league, composed of ten teams, a girls softball team, classes on the playground for girls and boys, quiet playground games, track activities, croquet, dodge ball, volley ball, end ball, slug ball, outdoor basketball, horseshoe, washer pitching, paddle tennis, and activities on apparatus such as swings, parallel bars, rings, teeters and slides. Field day, All-star day, campfire night, City softball playoffs, district and state softball playoffs, and tennis tournaments (men and women), were the summer feature attractions.

Autumn schedule featured Junior boys' eleven man football, six man football, touch football, kick back, kick goals, basketball, volley ball, horseshoe, and fall softball. The adult activity club operated under a revised autumn schedule and reached its record-breaking membership at 125 members. The week of November 11 again found the Community Center opening its doors for its winter schedule.

Lorraine Brown was assigned to the project in early summer, thereby greatly increasing girl activities in the City and bringing the total employed by the project to two full-time workers and one part-time worker.

Respectfully submitted,

GEORGE T. BURKE,
Recreation Director.

CITY ATTORNEY

To the Honorable City Council of the City of Winooski:

Gentlemen: I submit to you below an account of the legal services rendered by me as City Attorney for Winooski during the fiscal year 1940.

COUNCIL MEETINGS

I have attended all meetings of the city council held during the year. This includes all special as well as regular monthly meetings. Aside from regular monthly meetings, the mayor has called thirty-two special meetings on different occasions and for several purposes.

At each meeting the councilmen are confronted with legal matters of one kind or another. I have given such matters my undivided attention in all cases. I have rendered full and impartial decisions. I have at different times, when the occasion demanded it, drawn contracts and resolutions in matters that were required to be reduced to writing before their acceptance by the City Council, and in dealings between the city and other third parties.

LITIGATION

We have had no litigation of great importance during the year. One case, that of *Napoleon Barber vs. City of Winooski*, dismissed in municipal court when brought before it some time last year, was revived this year and brought before the Chittenden County Court. This case was continued at the request of counsel for Mr. Barber at the September 1940 term and will come up for trial at the coming March 1941 term. The matter involved resolves itself around the question of the liability of the City of Winooski for carting dirt filling by the employees of the city in a brook on the private property of Napoleon Barber on West Spring Street.

The city was threatened with suit on two other occasions on matters of little importance. At my suggestion, the city council refused to admit liability and would not even compromise in the matters. The would-be litigants did not make

good their threats and abandoned all efforts for a recovery of the damages suggested.

POOR DEPARTMENT

The poor department, as in past years, demanded more of my time on legal matters than any other department in the city. Matters of legal importance are of daily occurrence in this department. The city, being a manufacturing center, is a great haven for transient paupers from without searching for work. These transients who generally find no work after their arrival become quite a problem to the Overseer of the Poor and to the investigator who find themselves obligated to feed and support them as provided by law.

Through the vigilance and hard work of your investigator, several of these paupers have been found to have, for one reason or another, a pauper residence in other towns in the state. When so found, these towns must reimburse the city, after proper legal notice given to them, for any and all assistance granted to such paupers. However, before any such pauper can be unloaded from our relief rolls on to another town or city in the state it becomes necessary on our part to overcome any and all legal arguments advanced by other towns or cities refusing to accept the responsibility of supporting these paupers. The city must prove its case and facts must be ascertained to help in such proof.

The appointment of an investigator by the City Council last year to investigate cases such as these has brought about a great saving to the city due to the investigator's successful efforts in allocating many of these paupers to the towns and cities where they legally belong. I have at the investigator's request assisted her in all cases demanding legal knowledge and legal construction of existing pauper laws.

TAX COLLECTOR

I have continued to advise and help the tax collector in the performance of his duties as such. All writs issued by the tax collector were issued through my office. After the issuance of each writ, upon personal contact with the taxpayer, an attempt was made by me to influence the taxpayer to make proper arrangements with the tax collector for the payment of the tax in reasonable instalments, and this in order to save

further costs to the taxpayer. Over thirty writs were issued during the year, and, in all cases, satisfactory arrangements were made by the collector with the taxpayer for the payment of his delinquent tax before and without final legal procedures.

ORDINANCES

I have practically completed the revision of the City ordinances which I started about one year ago at the request of the City Council. This work would have been completed long ago had it not been for the fact that new traffic and new parking ordinances were requested by the council. This revision is being accomplished in my spare time too much of which I have not had of late.

No new ordinances were enacted during the year, although many existing ordinances will appear in new form when the new revised ordinances are adopted and published this year.

When requested by the City Council for an ordinance to license and regulate itinerant photographers, I was sorry to inform them that, in my opinion, such an ordinance would be unconstitutional as an attempt by a municipality to regulate interstate commerce, a matter upon which Congress alone has a right to legislate.

Winooski remains one of the few cities in the state which adopted no ordinance licensing and taxing "Pin-Ball" machines so-called. The city's action in this respect was a wise one as is demonstrated in a Supreme Court decision holding an ordinance of the village of Springfield void as being unauthorized and unconstitutional. Cities and villages that have licensed these machines are now faced with the sad proposition of having to repay money collected from these sources and where will the money come from. You will note I had advised against an ordinance in this respect in my report for the year 1939.

LEGISLATION

It is my earnest belief that the mayor of this city deserves and should receive pay for his services during his term of office. In contrast with the year 1927, when this question was voted down by the then voters of the city, the mayor today has to render greater and many more services than required from

the mayor in 1927. Untold and unknown to you are the services rendered by your chief executive. The poor department with its long list of recipients, the street department with its numerous W.P.A. projects, the water department with its constant problems of water pressure and requirements of new equipment for better service, and many, many other problems demand the constant attention, supervision and vigilance of your mayor. Good common sense and justice demand that he be given some remuneration for his many services rendered in the discharge of his duties as mayor. The city of Montpelier will pay its mayor \$1,000.00 a year beginning March 4, 1941, and the city of St. Albans, it is expected, will pay its mayor \$1,200.00 a year. As your senator from Chittenden County I hope to introduce a bill in the 1941 session of the Vermont Legislature authorizing the City of Winooski to pay its mayor, when voted upon by a majority of the legal voters, the sum of five hundred dollars a year, a salary which I consider conservative when compared with that paid to the mayors of Montpelier and St. Albans where the population is only slightly more than that of Winooski. I heartily recommend the adoption of this measure by the voters of this city.

Respectfully submitted

RUSSELL F. NIQUETTE,
City Attorney.

AUDITORS' FINANCIAL REPORT

We have made an audit of the books and records of the treasurer of the City of Winooski and of the Water Department from December 31, 1939 to December 31, 1940, and we respectfully submit our report as follows:

WARNING

TWENTIETH ANNUAL CITY MEETING

The Legal Voters of the City of Winooski, Vermont, are hereby warned and notified to meet in the Voting Room of the City Hall Building on West Allen Street, Winooski, Vermont, on Tuesday, March 4, 1941 at 9 o'clock in the forenoon to transact the following business :

ARTICLE ONE: To elect the following officers:

- (a) A Mayor to serve for the term of one year.
- (b) Two Councilmen to serve for the term of two years each.

ARTICLE TWO: To vote on the following questions:

- (a) Shall licenses for the sale of malt and vinous beverages be granted in this City?
- (b) Shall spirituous liquors be sold in this City?

ARTICLE THREE: To vote on the following question:

Shall the City Council be authorized to put into effect, by proper resolution, daylight saving time, so-called, for such months or fractions thereof for the year 1941 as the City Council may designate?

ARTICLE FOUR: To vote on the following questions:

- (a) Shall baseball be permitted on Sunday in this City?
- (b) Shall moving pictures be permitted on Sunday in this City?
- (c) Shall lectures and concerts be permitted on Sunday in this City?

ARTICLE FIVE: To vote on the following questions:

- (a) Shall the City vote to pay the Mayor the sum of Five Hundred dollars as compensation for his services during a one year term of office in accordance with Section 8 of No. 314 of the Acts of 1921 as amended by Senate Bill No. 22 of the General Assembly of 1941?
- (b) Shall the City vote to pay all members of the City Council, except the Mayor, the sum of One Hundred Fifty dollars each as compensation for their services during a one year term of office in accordance with Section 8 of No. 314 of the Acts of 1921 as amended by Senate Bill No. 22 of the General Assembly of 1941?

ARTICLE SIX: To transact any other business proper when met.

The polls shall open at 9 o'clock in the forenoon and shall close at 3 o'clock in the afternoon.

Dated at Winooski, Vermont, this 17th day of February, 1941.

EUGENE H. MANSEAU,
City Clerk.
